

We Ride

Gucci Mane

We ride, we ride, we ride
We ride
We ride
We ride
We ride
We ride
We ride
We ride
We ride
We ride
We ride
We ride
We ride
We ride
We ride

Even when it don't go right, even when the shit go left
Even when my arms can't fight we ride

Get somebody that gon ride for you
Even when I lose my breath
Who gon die for you
Even when I hurt myself
Who gon cry for you
Even if it means my life, we ride

Look I don't rust nobody like I trust you
I know you'll never hurt me cause it will hurt you
Everybody turn their back on me but you
And when I did time you was doing time too
Looking back at it, Hell what we went through
It's like I prayed for an angel and he sent you
They used to say you was a fool cause you loved me
Now look at them they lie them I wish it was me
But tell me can you hold me down in the bad weather
Cause anyone can hold it down through the fair weather
That's why the rock so big cause when you wave at em
I want them hoes like you sprayed at em

We ride, we ride, we ride
We ride, we ride, we ride
We ride, we ride

We ride, we ride, we ride
We ride, we ride, we ride
We ride, we ride, we ride
We ride, we ride

Even when it don't go right, even when the shit go left
Even when my arms can't fight we ride

Get somebody that gon ride for you
Even when I lose my breath
Who gon die for you
Even when I hurt myself
Who gon cry for you
Even if it means my life, we ride

It's me and my ride or die, that's my right hand
Got me thinking damn who gon be my best man
Built a house for 10 on your own land

And showed your best friend how to build her own brand
Have you ever seen a street nigga slow dance
In a white tux with a live band playing
It's like the new Gucci talking to the old Gucci
Gotta have 20m's to see what I'm saying
Who'd ever think I'd get this 4 hour jets trappin
Who ever thought I'd get this rich when I started rapping
This make a street nigga stand up and start clapping
I'd never thought I felt this way but then God happened

We ride, we ride, we ride
We ride, we ride, we ride
We ride, we ride

We ride, we ride, we ride
We ride, we ride, we ride
We ride, we ride, we ride
We ride, we ride

Even when it don't go right, even when the shit go left
Even when my arms can't fight we ride

Get somebody that gon ride for you
Even when I lose my breath
Who gon die for you
Even when I hurt myself
Who gon cry for you
Even if it means my life, we ride
