Cup full of syzurp, highway lane switching
Elbos on the slab, grain gripping
I'm getting money, getting cash, same difference
If you tryna make a mill, we on the same mission
New Orleans real nigga, we was made different
Cut from a different cloth, we was raised different
I sip slow, it take my mind to another atmosphere
Nothing but God, I'm on another atlis
I pour a cup, you pour a cup, I double back and match it
I take a sip, ah, fantastic
The purple got me moving slow mo, and they wonder why I'm driving so slow

I pop the seal on a Promethozen bottle
I still got my foot on the gas, full throttle
I got a couple bitches with me, they all model
And they suck it just to kick it with me, they all swallow
And I keep a couple guns with me, with all hollos
Turn your brain into ground meat, hard taco
My nigga Millz riding with me, and he twisting up the sticky
We put it in the air, now we all lifted
Make another stop at the next gas station
More dutches, more sodas, now we back blazing
Man, this purple shit taiste so amazing
And I can't forget about that purple hazing

I'm leaning to the left, chick to my right
Pocket full of cake, man, I'm loving life
Young Money, baby, we are so on
I'm feeling like Drizzy, I'm So Far Gone
I am so stoned, double cup styrophome
I'm in my 23, yes, I'm in my zone
Swerving lane to lane, highway dipping
And I'm still sipping, on the highway tripping
This for my Houston niggas, shout out the whole Texas
I'm from louisiana, we out here connected
This that Big Mo, Fat Pat, Screw music
Roll a blunt and pour it up, this what you do to it
