

Ride 4 Me

Gudda Gudda

And she gon' ride for me, stay by my side for me
She rock and roll with me, we going straight to the top,
She back it up and make it drop.
And she gon' ride for me, stay by my side for me,
We rock and roll with it, we going straight to the top,
She back it up and make it drop.

Long nights alone, no need for the phones,
Got me trippin with no luggage, I can't leave it alone.
She is more than a friend, got me gone like the wind,
Shot for me and you too, we rock and roll to the end.
We in paradise, we see nobody in our world.
Let her get on top and ride the dick like a cowgirl.
Your friends think you tripping when I take you from the party
And we pop a couple mollies, and we fuck like it's our hobby
Are we trippin, maybe, prolly, but for now it feels perfect
Other bitches ain't got shit on you, the time I spend is worth it.
And she wetter than a wave, so I dive in and surf it
9 to 5, we gonn work it.

And she gon' ride for me, stay by my side for me
She rock and roll with me, we going straight to the top
She back it up and make it drop.
And she gon' ride for me, stay by my side for me
We rock and roll with it, we going straight to the top
She back it up and make it drop

Candy paint drippin', as I swerve lane switching
Getting head while I'm driving, that's a head on collision
On a mission while we riding, on our Bonnie and Clyde shit
There's no I in we, so it's minus I shit.
Don't pay attention to the mess and the guys
See that they mad at the world, cause what they want and we got it
We lock it, about to rape the world for a profit
His and hers coups and the roofs is topless
Like a dancer, got questions, I got the answers
Communication is key, without it it's like cancer.
And it kills slow, destroying everything we live for
You ride for me, I ride for you, each other's what we kill for.

And she gon' ride for me, stay by my side for me
She rock and roll with me, we going straight to the top
She back it up and make it drop.
And she gon' ride for me, stay by my side for me
We rock and roll with it, we going straight to the top
She back it up and make it drop.

She gonn ride, no part time, ride through the hard time
When I get inside, she let me know it that it's all mine
Cause I'm a straight rider, and I'm a good provider,
Thick money and love, that keep her real excited
No gold digger, she know how to play a role nigga
No stripper, but she grinding on my pole nigga
I go deep, I know how to touch her soul nigga
She tell me I'm an upgrade, from her old nigga.

And she gon' ride for me, stay by my side for me

She rock and roll with me, we going straight to the top
She back it up and make it drop.
And she gon' ride for me, stay by my side for me
We rock and roll with it, we going straight to the top
She back it up and make it drop.
