

Ark Technician

Guided by Voices

Leadership and the art of shooting
Carefully so an architect
For the hand of vision

Can only hope
You will gather in pairs
For the greater convenience

And with my hands to the wheel
Sweating the board of reaction's appeal
Ignored, an attraction concealed

And I with my flagship salute
Parading
With all who would work for their meals
But Best Bought is offering no deals

To the eternal crowd
Outside for gathering sticks

For the greater convenience
