

# Be Impeccable

Guided by Voices

I can see you though  
Lift me up and go  
No concerns to grow  
No returns to show  
That you got to care a lot to know

Feel at what you stare  
You can always be there  
Go and please take care  
Well with what you wear  
It may look funny but it matched your eyes and hair

Be what you are  
The impeccable  
The untrackable star  
I'll shine my flashlight to where you are

I can move away  
But I can never not say  
That I should like to stay  
You say move away  
I can't make you out to feel that way

Be what you are  
Be impeccable  
The untrackable star  
I'll shine my flashlight to where you are

Be what you are  
Be impeccable  
The untrackable star  
I'll shine my flashlight to where you are

Wear what you've grown  
Well with what  
You've always known
