Guided by Voices

Chopping up your dream
Carnal limousine
Never what it seems
I'm on in your dream
Now you know [?]

I'm in on your dreams
Time it's what means
Something else
She got it in a warhead

Now I know that I go

That make my [?]
On top of everything

Got go to haul
Part of what my dreams
Called it your dream
But you should seem

Now it seems trouble it out
And we've seen you ravel it out
And all the coasts now

[?] police and they are loud
In those town go down
