

Cohesive Scoops

Guided by Voices

It takes the sunrise
It takes a lot of cohesive scoops
To make it all right
I know the world is the love you do

Tell me what you know now
Tell me what's in the bowl now
I found the love with cohesive scoops

It makes the daylight
It brings the smiles with the sparkle spoons
And then it's all right

I think the world of the be gone moons
Tell me where it's at then
Hey did you let the cats in?
It takes a lot of cohesive scoops

Tell me what you know now
Tell me who's in the bowl now
I found the world with cohesive scoops
