

Dust Devil

Guided by Voices

Don't make promises you can't keep
I've been hearing that in my sleep
Think of positive things to feel
You feel your strategies are too real

Times I'm thinking about watching me run
Times I'm thinking about I'm okay
Times I'm thinking about I'm going to turn gray
Times I'm thinking about turning your back

And run, wheels in motion
Watch them burn
Please go away now
But do return

Where the eagles
They look at you
When the fire spreads

Don't wanna divvy up what we found
I'm territorial holy bound
Times I'm thinking about before we go
Times I'm thinking about long and slow

So run, break the filth up
All around
Slowly build up
And break it down

Find the younger
And knock on wood
They be big now
We feel good

Wheels in motion
Watch them burn
Please go away now
But do return
