

Ego Central High

Guided by Voices

Here's a fight song for everyone
To forever improve your game
Throw out the ring that will bring you more
To forever enshrine your name

And then you find a situation to expand
And you will climb your education while you can

Find your elevation while you can
Find your elevation while you can

Pick up my plate
A complacent slate
If you've no prophets
To assume high positions
Find your way up

Find your elevation
Find your elevation, yeah
Don't try to come down
Talk about locations
