

## Every Man

Guided by Voices

Man with a problem  
And he's a easy man  
And a man and his brother  
And he's dreaming well  
Every man's living fast and he's drinking hard  
Every man

Goodbye, but you don't know me  
But I don't like it  
Hey, hey, hey, hey, hey  
I'll be on my way

Living with my pride  
When two worlds collide

Man with a problem  
And he's a easy man  
And a man and his brother  
And he's dreaming well  
Every man's living fast and he's drinking hard  
Every man

I don't savour  
Will I'll be on my case  
He is my friend  
He's got a lot to say

Living with my pride  
When two worlds collide

Man with a problem  
And he's a easy man  
And a man and his brother  
And he's dreaming well  
Every man's living fast and he's drinking hard  
Every man

Man with a problem  
And he's a easy man  
And a man and his brother  
And he's dreaming well  
Every man's living fast and he's drinking hard  
Every man
