

# I Wanna Monkey

Guided by Voices

The ancient heads  
In the heartland publications  
Get me down on lover's lake

And quickly burning  
Like a New York cigarette  
Give me all that I can take

Down a hole  
I'm down a hole  
Defecting now

In honor of this  
I present my case  
Very soon to be moved  
In to a higher place  
(Up in the trees)

In a long lost range of locomotion  
We should try to make friends  
We should try to be free  
Come on listen to me

I wanna monkey  
Wanna be blown out  
I wanna be relieved

I wanna roll  
For a second chance  
I wanna be conceived
