

# Keep Me Down

Guided by Voices

I have tried to read every page now  
But the wind just blew it away now  
Yank bravely-happened to choose you  
To keep you every night

But you keep me down  
Why do you keep me down?

I'm trying to keep all of my strength now  
But my knees just blew it  
I found you insanelly  
Now I can't lose you  
And I try to every night

But you keep me down  
Why do you keep me down?

I'm driven to you  
I'm driven to drink  
God make it your heart  
Your art  
I reputiate thee  
Thou venomous harpie

I'll plead every day now  
But the wind just blew it away now  
Yank bravely-happened to choose you  
To keep you every night

But you keep me down  
Why do you keep me down?

I'm driven to you  
I'm driven to drink  
God make it your heart  
Your art  
I reputiate thee  
Thou venomous harpie

I'll plead every day now  
But the wind just blew it away now  
Yank bravely-happened to choose you  
To keep you every night

But you keep me down  
Why do you keep me down?  
Why do you keep me down?  
Why do you keep me down?  
Why do you keep me down?  
Why do you keep me down?
