

Only Ghost In Town

Guided by Voices

I have to kill some time
They have [?] to reach you
They have to reach you
They have to reach you

I have to build a well
They know to [?]
They have to reach you
They have to reach you

Some how they bound to bound
They make me golden

They have to shake us down

They have to go around town
To find me
They have to chase the golden child

I have to kill some time
They have [?] to reach you
They have to reach you
They have to reach you

Change they make me golden

He shakes us down

They have to go around town
To find me
They have to chase the golden child

I have to kill some time
They have [?] to reach you
They have to reach you
They have to reach you
