

## Pluto Is Polluted

Guided by Voices

Give me a sound okay  
Jesus, bring it down some say  
Please us, I know you know how  
Come on, picking on big boys now

Jesus, give it a sound okay  
Bring it around some say  
And bring it sound you know  
Metal detection so you know

Sat around your head  
Please us, let us go down a step  
Baby, got a lot of room  
Go around, I see you gor around yourself

Shame on you  
Better see my dad  
So watch yourself  
Got to love myself

Jesus, it's not my thing
