

## Stops

Guided by Voices

It never stops being great  
As long as I'm with you  
The first stop price you make  
But it's to try a lot of single days  
Will no one ever find you?  
Long as I try  
From knowing only  
Every step along the way  
A leap year or an hour  
A second to appreciate  
Or to try it out  
An offering alone  
And you  
Well, I'd be the child  
We're breaking the spell  
Break out in motion  
To laugh when no one is around  
And weed out your garden  
To drink to nothing is the real thing  
Stay and check it out  
Hold on
