

## Surgical Focus

Guided by Voices

With surgical focus  
She stared at me and said  
I'm willing to reach out  
Get in to your head  
And I will keep you  
and cleanse you  
She glared at me and wept  
A change is not going to hurt you  
Not this time  
And I've been waiting in line for this  
Now that it's taken forever  
I insist  
Until I get it, I can't breathe  
Climbing high upon the rocky cliffs  
We fly  
With surgical focus
