

Teeth Flashlight

Guided by Voices

You're watching my teeth flashlight
You know when your on so right
You know when the sun go out for you
The word and the truth comes out with you

You're watching my teeth flashlight
The [?] and saints alright
And now the wrong comes in with you
Better show one taste in you

Seems like you
Know a thing right to do
Seems like you
Know a thing
Wrong me a right
Always chasing people alright

You're watching my teeth flashlight
You're watching my teeth flashlight
And

Same as she trace
Same as she traces on me all night

And the light
Under lie
Under lie

You're watching my teeth flashlight
You're watching my teeth flashlight
You're watching my teeth flashlight
You're watching my teeth flashlight
...
