

That Ain't No Good

Guided by Voices

This is to believe in me
Planning right
A plan in the heart of your soul
The blanks will fire

And then a world that's too blind
For every man
Take me to the back of your mind
It really hurts

That ain't no good
That ain't no good
That ain't no good
That ain't no good

That ain't no good
That ain't no good
That ain't no good
That ain't no good

Back in a city of gold
It's ready now
You push me into the ground
I fall to burn

It makes me loving your mind
It calls me up
I push you down on the ground
And tell you something

That ain't no good
That ain't no good
That ain't no good
That ain't no good

That ain't no good
That ain't no good
That ain't no good
That ain't no good

And if you're running away
Into town yeah
And if you're knocking away
Turn back yeah

That ain't no good
That ain't no good
That ain't no good
That ain't no good

That ain't no good
That ain't no good
That ain't no good
That ain't no good
