

The Best Foot Forwards

Guided by Voices

Post up Quigley, man
Your base line foot is slanted
Some of the best foot forwards
Are less than enchanted as they move
Still the wrong way out

No chance, no rants
Searching for the lost charges
But do they outweigh the option
Of an eye plug secret that may prove
Positive insight?

Go heroically again
Forward march
For countless generations
Searchlight on the wall

Without room and board for thinking
Ever linking future generations
Waiting for the call
Or are the best foot forwards running out of patience with us a
ll?
Are the best foot forwards running out of patience with us all?
