

Thick And Thin

Guided by Voices

Will you bring my brain back again
Pictures black and white
Time to get a clearer vision
Understanding fading like the sunlight
I know something isn't quite right
You're getting close to my love intro distribution
You had my head wrong way around

We try to make our plans
As we get thick and thin
Something must go wrong
To make us think again

Something today in the laundromat
Washing my own clothes
We don't choose to read the paper
Ordinarily, but have tons of fun
Separate my fancy clothes
You held me in my hand and naturally its fun
To make a motion to insist

We try to make our plans
As we get thick and thin
Something must go wrong
To make us think again

We try to make our plans
As we get thick and thin
Something must go wrong
To make us think again
