

# Time Machines

Guided by Voices

Looked around and saw things moving fast  
I became the product of my past  
Couldn't break the mirror was not strong  
The image getting clearer, no matter wrong

I reached out blindly for you  
Like night and day  
I was hopeless  
Till I came in touch with you

You're only baby, a child  
But I love the way that you're wild

Time machine, let's try it  
I'll ride it with you  
Jump inside, we'll fly it  
Let's go someplace new

Couldn't even think my world was [?]  
Smothered my emotions in energy and wit  
Tried to find the answers, need somebody's eyes  
Couldn't break the force field  
[?] down by lies

I reached out blindly for you  
Like night and day  
I was hopeless  
Till I came in touch with you

You're only baby, a child  
But I love the way that you're wild

Time machine, let's try it  
I'll ride it with you  
Jump inside, we'll fly it  
Let's go someplace new

And I know it's hard just to leave it  
But really we shouldn't move slow  
I happen to think that it's all gonna work out  
Let's go

Time machine, let's try it  
I'll ride it with you  
Jump inside, we'll fly it  
Let's go someplace new

You're only baby, a child  
But I love the way that you're wild  
(Time machine, let's try it)  
(I'll ride it with you)

You're only baby, a child  
But I love the way that you're wild  
(Jump inside, we'll fly it)  
(Let's go someplace new)

You're only baby, a child  
But I love the way that you're wild  
(Time machine, let's try it)  
(I'll ride it with you)

You're only baby, a child  
But I love the way that you're wild  
(Jump inside, we'll fly it)  
(Let's go someplace new)
