

Ugly Day Of Rain And Soccer

Guided by Voices

Have you any more reason
To question it so
Have you got Sean and Brett?
And listened for the light

Like I've known
I have called for you
And I see movement
Washing along the way toward

And your reason
And it's gone
And you'll wait up
All alone now

And it's hard to go
How to change a recent man
Like your fantasies lurk
On the rebound
And I'm not around

Gone alone
I have all of them
And it's gone and leaving
All it needs is a longing now you're going

And it's so
And I've gone and sailing down
All in a day
And down a long long way to go
