

Unfun Glitz

Guided by Voices

Unfun glitz
To fake you down
Under bliss
In an unfun town

And it works to be still around
At its worst
Goodnight, El Dorado

All down now
Sentient halo found me
Spin your head
Come down

No way, wild one
Will you love me always?
When the truth is gone
It's an unfun blitz
This just can't go on

I cry at night to an ancient love
I run there far too impatient
