

# You Make The Sun

Guided by Voices

You make the sun  
Rise around me  
You make the world  
[?] shine on the lake

As you change  
The popular sun over rain  
You make the world

You make the sun  
Shine around me  
You make the world  
[?] said

You go over well  
As you go on night everly [?]

Look at me I'm still not out of bed  
Your memory will soon betray  
Your situation baby  
Your memory of summer fades away

You make the world  
You make the sun  
You make the world
