

It Don't Matter No More

Gummy

Trouble makes more trouble
Lies grow to be unfixable
Your world turns on its own axis
IN the mean time,
My world breaks into pieces

Living; s gotten me to thinking
And I keep on reminiscing
I never knew this could
bring me such pain
What I've got Is an aching that I can't explain

My love should've been returned
But what now, It's over
Guess it don't matter no more
If you had even an bit of concern
but what now,
It's over Guess it don't matter no more

Your eyes nad your voice
came to me again
uh huh, they make me so insane sop it,
let me get on with my life Let go,
so I could get the strength to fly

My love should've been returned But what now,
It's over Guess it don't matter no more If you had even a bit of conc
ern But what now.
It's over Guess it don't matter no more

Why has it gone away?
Why has it gone astray?
Let it go, Let it go, Now
over love has gone away ovr love has gone astray? Let go, Let it go, N
ow

My love should've been returned But what now,
It's over Guess it don't matter no more If you had even a bit of conc
ern But what now.
It's over Guess it don't matter no more

My love should've been returned But what now,
It's over Guess it don't matter no more If you had even a bit of conc
ern But what now.
It's over Guess it don't matter no more

My love should've been returned But what now,
It's over Guess it don't matter no more If you had even a bit of conc
ern But what now.
It's over

Guess it don't matter no more
Guess it don't matter no more
