

# Universe

Gungor

I live within endless ocean  
Tidal waves of blood coursing through my veins  
A galaxy of life in me  
My mind is a universe

In constellations of neurons like nova  
Erupting in color  
Speech and adrenaline  
In sex and in texture and sound

I am the eye, I am the sight  
I am in death, I am in life

Don't limit me  
To category  
I refuse to live in your cerebral cage  
There's worlds within  
That contradict  
My heart is a universe

I'm more than a party  
Or orientation  
I'm more than a class or a half Puerto Rican  
I'm more than a number to count

I am the eye, I am the sight  
I am in death, I am in life

I am the eye, I am the sight  
I am in death, I am in life

I am the eye, I am the sight  
I am in death, I am in life
