

## We Bow

Gungor

I've heard it said that God was born  
A fragile child on earth  
A refugee, a wandering king  
The soul that felt its worth

That sister moon and all her stars  
They danced for him that night  
Oh, that shepherds traveled from afar  
For just one moment's sight

We bow to thee in all your majesty  
We bow to thee and all the mystery

I've heard it said, Immanuel  
That God is now with us  
The glory sung by angel throngs  
Found in a manger's dust

We bow to thee in all your majesty  
We bow to thee in all the mystery

Love has come to us  
Love has come to us

We bow to thee in all your majesty  
We bow to thee and all the mystery
