

# Day Off

Gunna

Ey

They put out a hit listen up tell your squad your name is on it  
I fucked up the game everybody wants feats I get sick of it  
My money my team at the top of the game you accepted it  
Everybody on your team is leeching off off what you get  
Tell your mama to duck out my shots next thing on my x waiting list  
20 million a week not my highest  
But my thickest bitch is jumping on me  
Asking me if I'm ready for a diet  
I won't eat your pussy I'ma try it, I'ma kill it yea

Ey

When we buy out the club and I call out your bitch she wants to suck me off  
I traded a lot of that money explain it's a take off

Woo

Look up, ey

I'm always right here working looking down looking at you like you fell off  
Always trap with the team I don't call the shots, they make sure my sins don  
't go up  
That tally my rally you fucked up that sally  
You always way off  
When I ask for my money, it's now not later and I bet you gon' pay it off  
With that money me and my team we hit the play offs I don't do no day off  
With that money me and my team we hit the play offs I don't do no day off  
With that money me and my team we hit the play offs I don't do no day off

With that money me and my team hit the playoff we don't take a day off

We got cash in that bag by the Lizzos  
I've been stacking this shit up like layers

I'm just living it up got codeine in my cup  
I've been drinking this muddy and it's real raw

I heard he bankrupt thought he put that shit on  
Had to tell him boy you got that shit off

Ran out the car cut their route off  
Catching plays on the field call me Deion  
Never seen this shit this ain't no rerun  
I got Ice on me, colder than freon

I hoped on a jet n land in montreal
