

# Bible On The Dash

Gunplay

(Verse)

Sweaty girl in the morning early got the castor rush  
MOB that's a must, COD I got no trust  
And I be being meffin a million won't last a month  
All I need is one PNS and that's enough and  
And I ain't even cranked up yet but bet I'm guessing up  
When my prada pressed that pedal bitch you better fasten up  
I exhale as the blunt inhale a hundred tons  
Not even a hundred one, couldn't bring back how it was  
When M brick was 17 and you ain't had to rob your plug  
Man rapping was an art now this shit a joke  
Catch a couple dollar few jewels and some pussy  
I'm getting a little too power drunk now I'm on that boujie

(Hook x2)

I got a problem and a plan  
Revolver in my hand  
Tryin' to keep it cold  
Cuz y'all won't understand  
That's why I roll, that's why I roll  
With the bible on the dash  
That's why I roll, that's why I roll  
With the bible on the dash

(Verse)

Cunning corners on coronas  
Tryin' to buck up on a bonus  
Out here on my lonely last stoggie,  
But I'm focused now I know  
Friends parallel to foe  
And all that good pussy need a parallel you broke  
I ask the pastor what's the fastest way to heaven  
For a bastard with a tonish past  
Give me a honest answer  
With all this Hannah Montana without the arm and hammer  
Am I gonna get the slammer or the casket  
Tryin' to keep a level here rolling on this rocky road  
It's a full time gig trying to keep this glock poled  
I got the work, water and the pot need a hot stove  
Vendor down as bitch in a squad down the road

(Hook x2)

I got a problem and a plan  
Revolver in my hand  
Tryin' to keep it cold  
Cuz y'all won't understand  
That's why I roll, that's why I roll  
With the bible on the dash  
That's why I roll, that's why I roll  
With the bible on the dash
