

Darkness For Dreams

GUNSHIP

Ash snow angel
Numb our pain
She said goodbye
Darkness for dreaming
Ash snow angel
Numb our pain
She said goodbye
Darkness for dreaming

We got our fingers burned
So tell me what have we learned
It's all inside your head
We'll keep walking on air

A call to wake up
Restart the clocks and live again

Darkness for dreams
Darkness for dreams
Lie back in the ash snow with me
The closest we've been
The closest we've been
Darkness for dreams

We are unstoppable
We are unstoppable

Extraction's gonna hurt
But this skin can't live without love
Nothing compares
Just keep walking on air

A call to wake up
Restart the clocks and live again

Darkness for dreams
Darkness for dreams
Lie back in the ash snow with me
The closest we've been
The closest we've been
Darkness for dreams

Ash snow angel
Numb our pain
She said goodbye
Darkness for dreaming
Walking on air
Ash snow angel
Numb our pain
Walking on air
She said goodbye
Darkness for dreaming
Walking on air

There is no room left in electric heaven
Falling in love for the first time
With the spoils of machine war infected dualism

All the future we secure

Let's go

Ash snow angel

Numb our pain

She said goodbye

Darkness for dreaming

Ash snow angel

Darkness for dreams

Darkness for dreams

Lie back in the ash snow with me

The closest we've been

The closest we've been

Darkness for dreams

Ash snow angel

Numb our pain

She said goodbye

Darkness for dreaming
