

# DooM Dance

GUNSHIP

Hey kid  
What's the matter  
You wanna live forever

Enter the club, that walk so lethal  
She blows my mind like nobody else could do  
Fame, debaucher disco  
She twists your face  
Yo she's got it

Dance  
I n-n-n-need somebody to  
Doom  
Raise some hell with you

Can you hear me call  
Can you hear me call your name

You stir my blood and my mind feels better  
Take me to the place where we live forever  
You and I are now mixing together  
Higher and higher we're moving forever

Shotgun, hot love in the fast lane  
Dark night  
Highway to sin with you  
Fame, they said never dies  
Future proof  
Hey we've got it

Dance  
I n-n-n-need somebody to  
Doom  
Raise some hell with you

Can you hear me call  
Can you hear me call your name

You stir my blood and my mind feels better  
Take me to the place where we live forever  
You and I are now mixing together  
Higher and higher we're moving forever

You bring the heat right down on me  
Give me more, give me more  
Give me more, give me more  
You bring the heat right down on me  
Give me more, give me more  
Give me more, give me more

Can you hear me call  
Can you hear me call your name

You stir my blood and my mind feels better  
Take me to the place where we live forever  
You and I are now mixing together  
Higher and higher we're moving forever
