

Ghost

GUNSHIP

Molten bloody earth
A focused open wound
All highways lead right here
Ghost

Storms and heavy air
Riots in the street
I'll take you somewhere safe
Ghost

Will we feel the same
Caught between the sheets
Time is time again
Ghost

Just show me your world
Will we feel the same

Dancing around my head
Glowing stems of death
Time is time again
Ghost

Anodyne you hurt like heaven
Physical comfort drift away
Anodyne you move like heaven
Physical comfort drift away
Anodyne distortion has brought us back together
Operation Overlife guide us away
