

# Run Like Hell

GUNSHIP

How about a little taste of what's in sight  
How about a little fun before we die  
Get lost  
It's somebody else's turn to fight  
There's nobody else like you

Don't cry 'cause it's over, smile because it was  
I remember you swimming in the shadows and dancing in the rain

Run like hell  
This is the night of the hunter  
Deliriously pull the trigger, fire  
Run like hell  
You got the shot away, thunder  
I never thought it would end like this  
You are my escape artist

How about these dead hands around my neck  
How about this girl stuck in my head  
Let's get lost together  
On the road where our blood is soaked into  
There's nobody else like you

Don't cry 'cause it's over, smile because it was  
I remember you swimming in the shadows and dancing in the rain

Run like hell  
This is the night of the hunter  
Deliriously pull the trigger, fire  
Run like hell  
You got the shot away, thunder  
I never thought it would end like this  
You are my escape artist

Don't cry because it's over  
Just smile because it was  
Don't cry because it's over  
Just smile because it was

Don't cry because it's over  
Just smile because it was  
Don't cry because it's over  
Just smile because it was

You are magical  
The light in my head  
You are magical  
Until the death
