

The Mountain

GUNSHIP

The Sun sets
These ascari nights are cold
Come close girl, shiver in my arms

You escape with a smile
(You are electric)
You're battered and bruised
(We could be electric too)
Your eyes are as dark
As the night that you head for

(Give it up)
Stay with me
(Don't give it up sunshine)
(Give it up)
Stay awake with me

Contact on Fifth Street
I'm willing to go just a little too far
To clear the bones from your heaven

(To your body I'll hold)
You escape with a smile
(You are electric)
You're battered and bruised
(We could be electric too)
You're right on the wire
But you've got heart kid

(Give it up)
Stay with me
(Don't give it up sunshine)
(Give it up)
Stay awake with me

When the cloud breaks
Wake me when it's over
(It's only rain)

(So lonely)
(It's alright)
(So lonely)
(It's only rain)
