

The Video Game Champion

GUNSHIP

As you cut them down feel the pressure rise
Through the eye of the storm into the night

Blood keeps on flying
Heads keep on rolling
You're dragging them all to hell
The tyres keep on screaming
The crowds are still believing
The devil is in your soul

(Disrespect) The power is out of control
(Fire) When the lights go down
(Feel it) This is more than a video game
(Dreamer) You'll win with thunder
(Hold on) Tonight

You got the power in your hands and the fight in your eyes
Through the digital world into the light

The road is still burning
Fists move like lightning
Just keeping the dream alive
The barrel is still smoking
The war still raging
The devil is in your soul

(Disrespect) The power is out of control
(Fire) When the lights go down
(Feel it) This is more than a video game
(Dreamer) You'll win with thunder
(Hold on) Tonight

Violence, speed, momentum
Cut like the doctor
Can you feel it coming on
The deeper it gets when the chips go down

When the lights go down
And the waves roll in
You'll win with thunder
Tonight

(Fire) When the lights go down
(Feel it) This is more than a video game
(Dreamer) You'll win with thunder
(Hold on) Tonight
