

## Synergy

Guru Josh

We're tied together with the things that we have learned  
We live forever through the times when we'll get burned  
We're calling out for life, united we will stand  
We'll make a better life than anyone could plan

'Cause alone I'm fine but I'm better with you  
Our life's in synergy  
Think of what we can be and what we can do  
Our life's in synergy  
And there ain't a place that we can't embrace  
Our life's in synergy  
And we won't be told what our futures hold  
Our life's in synergy
