

## The Fool

Gus Dapperton

You saw me when I walked in your world  
Swift moves, miss you  
You saw me when I walked with your girl  
This dude

Has driven me far away from love  
And I can't deal with the pain of trust  
No, I can't deal with the pain of love  
See your face, my tears they run  
In your place, my dear, you're done

Stay, my love  
You always take your reigns and run from us  
Leave me here to lay outside  
You're suddenly less radiant  
I'm dumb, I'm dumb, I'm dumb

You shook me when I stepped on your shoes  
Excuse, how rude  
You watch me as I waltz with your woozler  
This fool

Has driven me far away from love  
And I can't deal with the pain of trust  
No, I can't deal with the pain of love  
See your face, my tears they run  
In your place, my dear, you're done

Stay, my love  
You always take your reigns and run from us  
Leave me here to lay outside  
You're suddenly less radiant  
I'm dumb, I'm dumb, I'm dumb
