

# Verdigris

Gus Dapperton

You like war, and ice-cream  
So, you bite right with your teeth  
You like war, so I scream  
Love, you fight like history, yeah

You like war, and ice-cream  
So you bite right with your teeth  
You like war, so I scream  
Love, you fight like history

You like war, your eyes gleam  
So you find like mystery  
You like war, your eyes green  
Love, you shine like verdigris

Verdigris

You like war, your eyes secrete  
So you wipe right with your sleeve  
You like war, you're asleep  
So you're wide-eyed in your dreams

You like war, your eyes gleam  
So you find like mystery  
You like war, your eyes green  
Love, you shine like verdigris
