

I want to be in the movies  
Your favorite kind of show  
My baby already plays me every time that I go  
And I could be in the movies  
And you could be Rose McGowan  
I feel like I'm famous  
Every time we're alone, every time we're alone

Just me, must see  
Drama donna upon a masterpiece  
So I stay, on screen  
Mama wanted me a vanity

I know that I can make you move  
And when your tongue is tied, I'll talk you through  
My baby said, "I like your point of view"  
I want to watch you too (Oooo)

I want to be in the movies  
Your favorite kind of show

And I could be in the movies  
And you could be Rose McGowan  
I feel like I'm famous  
Every time we're alone, every time we're alone

Just me, TV  
Entertaining your hilarity  
So I stay, on screen  
Shaking, making you up out your seat

I know that I can make you move  
And when your tongue is tied, I'll talk you through  
My baby said, "I like your point of view"  
I want to watch you too (Oooo)
