

## All Day

Guster

Whispered devotions  
Our bodies in motion  
We laid our hands in mud and made bricks for a temple  
Wrote our names in the clay

Time went like water  
A son and a daughter  
Frame by frame defined by moment in moments  
The wings of a bird  
The tongue of a snake

So we've come this far  
If we sit and wait  
Well we got all day  
All day

Those weathered devotions  
Are not magic potions  
The stains remain and remind us of monument moments

In the bricks of our temple  
Our names still in clay  
It was there that I told you

Well we've come this far  
So let's sit and wait  
Cause we got all day  
All day

Just like I told you  
Forever I'd hold you  
It's been half our lives  
And it's made me great  
And we've got all day  
Yeah we got all day  
All day

Just like I told you
