

# Hard Times

Guster

Enter a scene that defies description  
They say to open your mind  
And take it all inside  
One click at a time  
We move through fictions

And send our sisters to the sacrifice  
A cruel conviction  
Sinister systems keep us satisfied  
These are hard times

I'm breathing in the oxygen  
I'm holding it through hard times  
I'm breathing out in the ultrasound  
Things come around in hard times

Ten thousand miles of the new prescriptions  
So we open our mouths  
And take 'em all inside  
One pill at a time  
The purist fictions

We send our sisters to the sacrifice  
With cruel conviction  
Sinister systems keep us satisfied  
These are hard times

I'm breathing in the oxygen  
I'm holding it through hard times  
I'm breathing out in the ultrasound  
Things come around in hard times

A new religion  
We send our sisters to the sacrifice  
And then the audience goes wild!

I'm breathing in the oxygen  
I'm holding it through hard times  
(These are hard times)  
I'm breathing out in the ultrasound  
Things come around in hard times  
(These are hard times)  
I'm breathing in the oxygen  
Take it all inside, take it all inside  
(I'm holding it through hard times)  
I'm breathing out in the ultrasound  
Things come around in hard times
