

My Kind

Guster

For real, I know what's next, okay
I know what's next

God, I'm afraid
Every little thing's got me spinning out
I tell you you're safe
Shine a bit of light in the underground

Tell you you're my kind
Tell you you're my kind
Hold my hand until you're up and steady
Hold my head until you're up and ready

'Cause I know what's next
I can see the twist of the final act
Puff out my chest
Punch drunk hero in a paperback

Tell you you're my kind
Tell you you're my kind
Hold my hand until you're up and steady
Hold my head until you're up and ready
Hold my hand until you're up and steady, oh

Oh, nothing ever comes from nothing
And, oh, you're my kind!

Come and tell me you're my kind
Come and tell me you're my kind
Come and tell me you're my kind
Come and tell me you're my kind
Come and tell me you're my kind
Come and tell me you're my kind
Hold my hand until I'm up and steady
Hold my head until I'm up and ready
Hold my hand until I'm up and steady, oh
