## **Hopeless**

## Guttermouth

Seventeen and hopeless and I don't care Just want to get laid and drink some beer No responsibility, nothin to do I can do anything I put my mind to

Born in this world Die in this world Life goes on

Now I'm twenty three my future's in sight Got a steady boring job my future don't look too bright Try to fight the system but I keep to myself I take my mind out at night and I put it on the shelf Now I'm thirty four it's a nore

Smashed my nuts in the kitchen door Do you want to tell me tell me now Just hoe life is such a cow
