

# World up My Ass

Guttermouth

I've got the world up my ass  
And I better move fast  
Won't be the first  
Could be the last  
Yeah I've got the world up my ass

Society is burning me up  
Take a bite, spit it out  
Take their rules  
Burn 'em up, tear them down

Twisted mind, twisted brain  
You know I'm going insane  
I just want to break dance  
When they tell me how to act

I've got the world up my ass  
You know I've got the world up my ass

Society is burning me up  
Take a bite, spit it out  
Take their rules  
Burn 'em up, tear them down

You know I've got the world up my ass  
You know I've got the world up my ass

Society is burning me up  
Take a bite, spit it out  
Take their rules  
Burn 'em up, tear them down
