She Loves to Ride Horses

Two shots of Wild Turkey puts the wind in her hair Bound and determined in the cold mornin' air If you don't like horses I'd suggest you stay home She don't ride double get a horse of your own

She loves to ride horses, she doesn't care How long it'll take her or if she ever gets there She ain't got no reason and she don't need no rhyme She loves to ride horses in 3/4 time

Ah, you can't tell her nothing she don't want to know You can't take here nowhere she don't want to go She might not show up, she might not call She loves to ride horses and that's about all

She loves to ride horses, she doesn't care How long it'll take her or if she ever gets there She ain't got no reason, ah she don't need no rhyme She just loves to ride horses in 3/4 time

She loves to ride horses, she doesn't care How long it'll take her or if she ever gets there She ain't got no reason, ah she don't need no rhyme She just loves to ride horses in 3/4 time
