

I Can't Help It (If I'm Still in Love With You)

Guy Mitchell

(Peggy Forman)

She slips your wedding band off of her trembling hand
While I wipe the teardrops off her face
I'm not stealing her from you just doing what she wants me to
And I can't helpt it if she can't stop loving me.
I can't helpt it if she can't stop loving me
I can't stop her if that's where she wants to be
There must be something here she really needs
And I can't helpt it if she can't stop loving me.

--- Instrumental ---

Somehow she can't resist the warmth of my two lips
And how I used to hold her when she was mine
She's tried to close the door but keeps coming back for more
And I can't helpt it if she can't stop loving me.
I can't helpt it if she can't stop loving me
I can't stop her if that's where she wants to be
There must be something here she really needs
And I can't helpt it if she can't stop loving me...
