Drink Driving

Guy Sebastian

Head on the car door, open to the risk
Got what you asked for, I can take a hit
Brewing up the chemical, burning in my ash
Now I'm behind the wheel, operating blind
You'll be my passenger, I will let you in
Seatbelt's suffocating, so let's take them off I think
Judgment impaired, I ain't too unaware
Too out of our minds to remember that we're scared

This is gonna hurt, when we finally crash and burn
Left on the pavement, not even worth saving
Getting what we deserve

'Cause we got dangerous
Like driving drunk, intoxicated
Don't even know what my name is
Oh, we did not look so drunk enough
No way we're surviving, too late to fight it
'Cause getting in bed with you is like

Drink, drink, driving
Drink, drink, driving
Drink, drink, no-oh-oh-ooh

Hands on the wheel, my feet accelerate
Surrounded by steel, I don't wanna hit the break
No security when you're sitting next to me
But I swear I never said you had to take a seat

This is gonna hurt, when we finally crash and burn
Left on the pavement, not even worth saving
Getting what we deserve

'Cause we got dangerous
Like driving drunk, intoxicated
Don't even know what my name is
Oh, we did not look so drunk enough
No way we're surviving, too late to fight it
'Cause getting in bed with you is like

Drink, drink, driving
Drink, drink, driving
Drink, drink, no-oh-oh-ooh

'Cause we are dangerous
Like driving drunk, intoxicated
Don't even know what my name is
Oh, we did not look so drunk enough
No way we're surviving, too late to fight it
'Cause getting in bed with you is like

Drink, drink, driving
Drink, drink, driving
Drink, drink, no-oh-oh-ooh
