

# Get It Done

Guy Sebastian

This couldn't stay on the tip of my tongue  
Had to do what had to be done  
If I'm gonna go then I won't go quiet  
I'm here to catch bullets so let them fly

It wasn't me who fired the gun  
You know I'm gonna stay till the bell gets rung  
Always twenty-one but the game gets hard  
It's not a fair fight when they're counting cards

I know what I need to do so let it come  
I'm gonna get it done  
Yeah, I'm gonna get it done  
Yeah, I'm gonna get it

Hit the ground running since I was sixteen  
Seen heaven and hell trying to chase a dream  
Took me a while, now I know what they mean  
You ain't doing it right if your shoes stay clean

You know it came with a sacrifice  
Crowded days and lonely nights  
I would have gone mad, been a broken man  
If it weren't for the ones I count on one hand

Oh, I know what I need to do to so let it come  
'Cause I'm gonna get it done  
Yeah, I'm gonna get it done

Gon' grit my teeth and battle on  
Roll my sleeves until it's won  
I'm gonna get it done  
I'm gonna get it done  
I'm gonna get it

Gone are the days where I sit back  
Gone are the days where I'm afraid of a mismatch  
Gone are the days where I look back, whiplash  
Gone are the days, gone are the days  
Gone are the days where I sit back  
Gone are the days where I'm afraid of a mismatch  
Gone are the days where I look back, whiplash  
Gone are the days, gone are the days

I'm gonna get it done  
Yeah, I'm gonna get it done

Gon' grit my teeth and battle on  
Roll my sleeves until it's won  
I'm gonna get it done  
I'm gonna get it done  
I'm gonna get it
