

In a World

Guy Sebastian

In a world where we compromise and learn to love our enemies
In a world where it's safe to go outside
Is where we're supposed to be
People say it's far away
But somehow it feels close to me
Now I got so much to lose
I think about it constantly

Yeah that's all that I want
Pray to God you grow up
In a world
Where you're safe and you're sound
Never lost
Always found
Always heard

In a world
In a world
Where you're safe and you're sound
Never lost
Always found
Always heard
In a world

Where you can love the one you love
And go about it openly
Where you can chase a dream
And no one says that ain't reality
Where it's common place to say
That ain't my God
But yours is cool with me
Where teachers can just teach
Instead of training for a tragedy

Yeah that's all that I want
Pray to God you grow up
In a world
Where you're safe and you're sound
Never lost
Always found
Always heard

In a world
In a world
Where you're safe and you're sound
Never lost
Always found
Always heard
In a world

Yeah that's all that I want
Pray to God you grow up
In a world
(In a world)
Where you're safe and you're sound
Never lost
Always found

Always heard
(In a world)

Yeah that's all that I want
Pray to God you grow up
In a world
(In a world)
Where you're safe and you're sound
Never lost
Always found
Always heard
(In a world)

Yeah that's all that I want
Pray to God you grow up
In a world
Where you're safe and you're sound
Never lost
Always found
Always heard

Yeah that's all that I want
Pray to God you grow up
In a world
Where you're safe and you're sound
Never lost
Always found
Always heard

In a world
In a world

Yeah that's all that I want
Just to give you the world you deserve
