

# Light and Shade

Guy Sebastian

Light and shade  
Light and shade  
When did I get so afraid?  
And I'm tryin' to find a silver line  
And all I see is grey  
Light and shade

Light and shade  
I'm just tryin' to find my way  
Oh, Sweet Jesus  
I'm so tired  
I need some help today

Woke up this morning  
Got a thing, girl  
Cause yesterday seems kind of odd  
I ask myself  
Like how you wake up tired?  
Your motivation expired  
Find me in places where I don't fit  
Nor do I wanna be eating  
Used to be following  
Kickin' the back of the leader  
The world was turning  
And I was always receiving  
Life gonna retreat

Now we are the newest trends  
The most wanted  
But I am my kids most wanted  
The devil is a sales man  
I don't want it  
The devil is a sales man  
I don't want it

Light and shade  
Light and shade  
When did I get so afraid?  
And I'm tryin' to find a silver line  
And all I see is grey  
Light and shade

Light and shade  
I'm just tryin' to find my way  
Oh, sweet Jesus  
I'm so tired  
I need some help today

Been to my jail with no bail  
On the road, airplanes and hotels  
And all this time for myself  
You're thinkin' like  
What if I was here by myself?  
What it seems like social media  
It makes you lose life  
You are on your foot  
From the sun to the moon light

And when you're fed up  
You finally out your head up  
Feel free

Now we are the newest trends  
The most wanted  
But I am my kids most wanted  
The devil is a sales man  
I don't want it  
The devil is a sales man  
I don't want it

Oh, sweet Jesus  
I'm so tired  
I need some help today

I'm fuckin' on my own  
And I'm too far from home  
And I'm tryin' to find the road  
That I should take  
And though the sun is gone  
Still I'm holding on  
Cause I hope it's gonna shine for me again

The devil is a sales man  
I don't want it  
Yeah he is a sales man  
I don't want it

The devil is a sales man  
I don't want it  
Yeah he is a sales man  
I don't want it
